Key findings

The decision establishing FP7¹ has set a target for 15% of EU funding under the Cooperation Programme to go to SMEs.

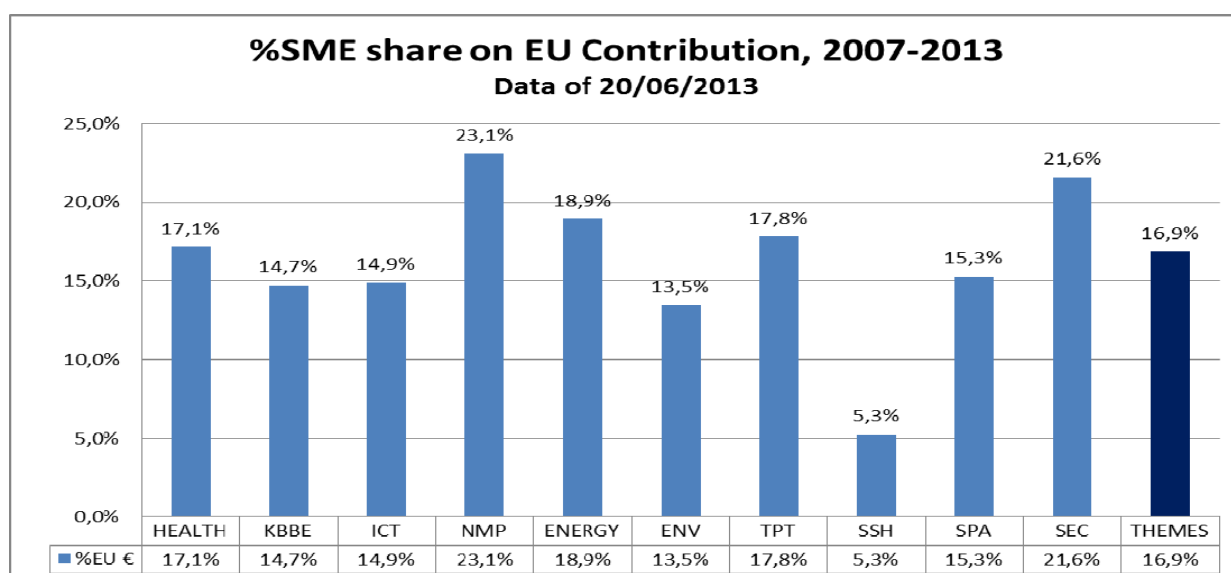

The present report is the tenth of a series of reports whose primary aim is to monitor the implementation of the above mentioned target.

In addition to reporting on the 15% target of the Cooperation Programme, the report provides detailed data on SME participation across FP7.

The previous issue of this report –published in October 2012 – highlighted that 16.3% of the total Cooperation Programme used budget went to SMEs. This figure further progressed to 16.9% over the past nine months.

The main part of Cooperation Programme consists of the ten Thematic Priorities.

The graph below shows the percentage of the EU contribution going to SMEs for all thematic priorities combined and for each one of them individually.

Graph 1: Share of EU contribution going to SMEs, for each theme within the Cooperation programme (2007-2013). Based on Grant agreements signed up to 20th of June 2013

HEALTH	Health research	ENV	Environment research (including climate change)
KBBE	Food, agriculture, fisheries and biotechnology	TPT	Transport research (including aeronautics)
ICT	Information and communication technologies	SSH	Socio-economic sciences and humanities research
NMP	Nanosciences, nanotechnologies, materials and production technologies	SPA	Space research
ENERGY	Energy research	SEC	Security research

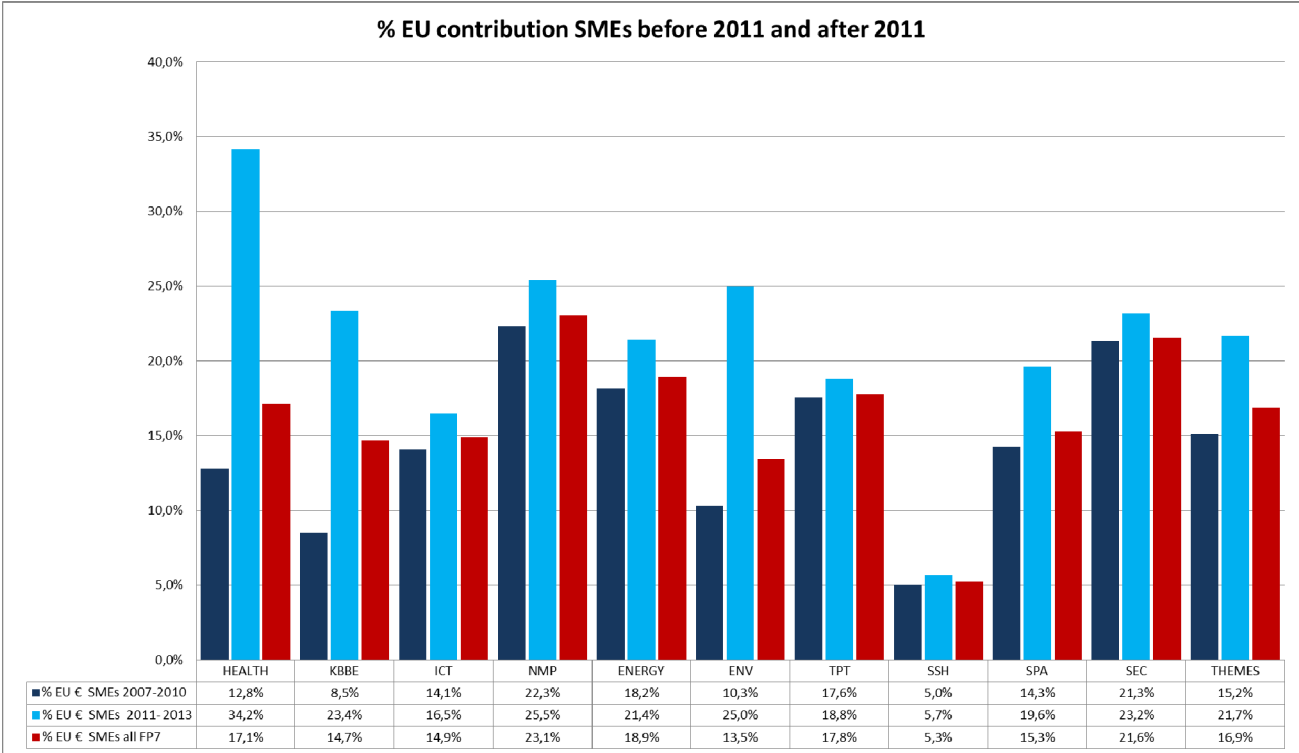

By the end of June 2013, SMEs made up 19.1% of all participations in the Cooperation programme, as will be detailed in Chapter 2 of this report.

¹ "Decision no 1982/2006/EC of the European Parliament and of the Council of 18 December 2006 concerning the Seventh Framework Programme of the European Community for Research, Technological Development and Demonstration activities (2007-2013)" – Annex I.I. Cooperation

This report also provides in-depth statistics about the composition of project consortia: 74.6% of all the grant agreements in the thematic priorities involve at least one SME and 11% of all the project consortia are led by an SME coordinator. On the basis of the latest figures, the average EU contribution going to SMEs participating in thematic research projects is at € 284,000 per project. This is about € 9,000 more or 3% higher than the figure reported in October of last year, in the ninth issue of this report.

The total number of participations registered under FP7– including Research for the Benefit of SMEs and the Marie-Curie Actions – is close to 106,000 now, and includes 19,300 SME participations, receiving an average EU contribution of € 253,000. The SME participations represent 11,260 unique² SMEs, while 24,800 unique organisations have participated in FP7 so far. This means that about 45% of the organisations participating in FP7 are SMEs.

Graph 2 below shows the evolution of the EU contribution share going to SMEs under the FP7 Cooperation Programme. The graph shows a significant increase in EU contribution going to SMEs for all thematic priorities after 2011. This is because many work programmes of 2011 and 2012 included measures designed to increase SME participation, such as ring-fenced budgets, or the inclusion of topics of special interest to SMEs etc.

Graph 2: EU contribution share going to SMEs before and after 2011
(Includes data series from calls with deadline before 2011, calls with deadline after 2011 and all calls together)

² An organisation can participate in more than one project. We use the term unique when counting an organisation only once, irrespectively of the number of times it participates in the programme.

Chapter 1. Key Figures on SME participation in FP7

Overview of FP7

FP7 has five specific programmes. The table below summarises the SME-related key figures for the entire framework programme and for each of these specific programmes.

Table 1: Key figures for SME participation in the five specific programmes of FP7 for research (taking into account grant agreements signed up to the 20th of June 2013).

Specific Program Description	Signed GAs	Nr of SMEs Participations	Number of all Participations	Nr of Individual Participants	Percentage of SME Participations	EU Contribution Going to SMEs	EU Contribution to all	Percentage of the budget going to SMEs
SP1-Cooperation (*)	6299	13.052	68.474	18805	19,1%	3.672.226.708	21.766.834.319	16,9%
Thematic Priorities	5788	12.414	66.057	18294	18,8%	3.525.934.169	20.911.969.729	16,9%
Other	511	638	2417	511	26,4%	146.292.539	854.864.590	17,1%
SP2-Ideas	3522	20	4.080	647	0,5%	17.144.376	5.737.251.182	0,3%
SP3-People	9001	942	15.981	3201	5,9%	225.551.371	3.667.660.289	6,1%

FP7-OVERALL	20628	19.264	105.999	30677	18,2%	4.966.033.759	34.643.279.763	14,3%

Source: CORDA. Data on grant agreements signed before 20 June 2013

(*) Besides the thematic priorities (themes), this figure also includes the grants to ESA, the Joint Technology Initiatives (JTIs) and the General Activities such as the CORDIS services, the horizontal ERA-NET scheme, Research organisations in the EU, Strengthened coordination with EUREKA, Scientific and technological cooperation activities carried out in COST, and under the European Metrology Research Programme.

As expected, the Capacity Programme – with its SME-specific measures under Research for the Benefit of SMEs – devotes the highest percentage of its EU contribution to SMEs (32.1%), which corresponds to about €1.03Billion.

In absolute numbers, the highest EU contribution in funding provided for SMEs under FP7 (i.e. about €3.6 billion) is made under the Cooperation programme, which devotes 16.9% of its overall budget to SMEs.

The EU contribution to SMEs under the People programme can mainly be attributed to the IAPP and the IAT programmes, which include specific measures meeting SME needs. For this reason, the data contained in Chapter 14 focuses exclusively on those two programmes.

Chapter 2. SME Participation in the Cooperation Programme (Themes)

The table below provides an overview of SME participation by theme, in terms of EU contribution and in terms of SME participation, both in values and in percentages.

Table 2: Key data on SME participation in Grant Agreements for the ten Themes

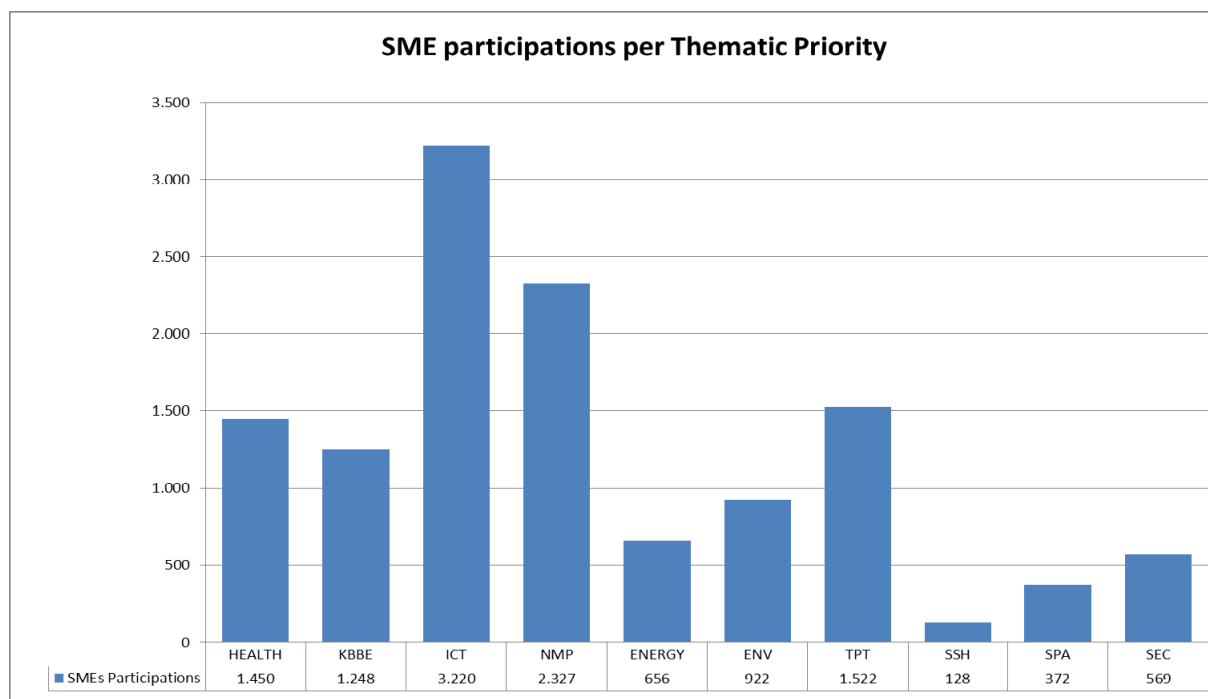

Theme	Participation				EU contribution					Average Size of Consortia	Average number of SMEs
	Signed GAs	SMEs Participations	Number of all Participations	Participations % of SMEs	EU Contribution going to SMEs	EU Contribution to all	Average EU Contribution per SME Participation	Average EU Contribution per participant	% of EU Contribution going to SMEs

Source: CORDA

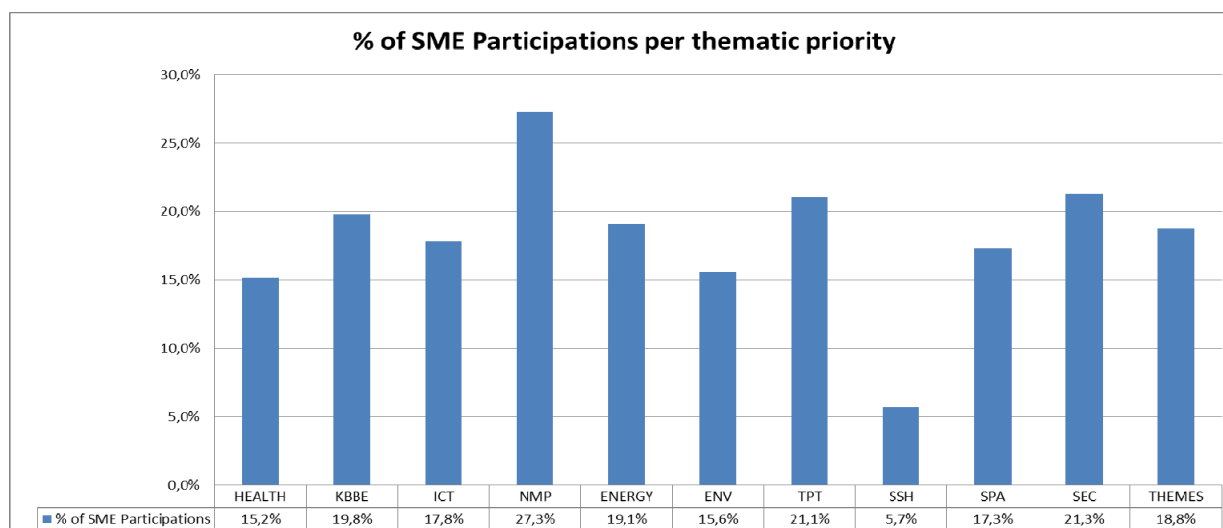

The percentage of EU contribution going to SMEs out of the total contribution is highest for the NMP theme (23.1%), followed by SEC and ENERGY. In terms of monetary EU contribution, first comes the ICT theme with over €943 million, followed by Health and NMP.

SMEs participations in the Cooperation programme

The graphs below display the data contained in table 2 (above) graphically. ICT attracts the highest absolute number of SMEs, but we can find the highest concentration of SMEs – i.e. participations expressed in percentage of the total – under the NMP thematic priority.

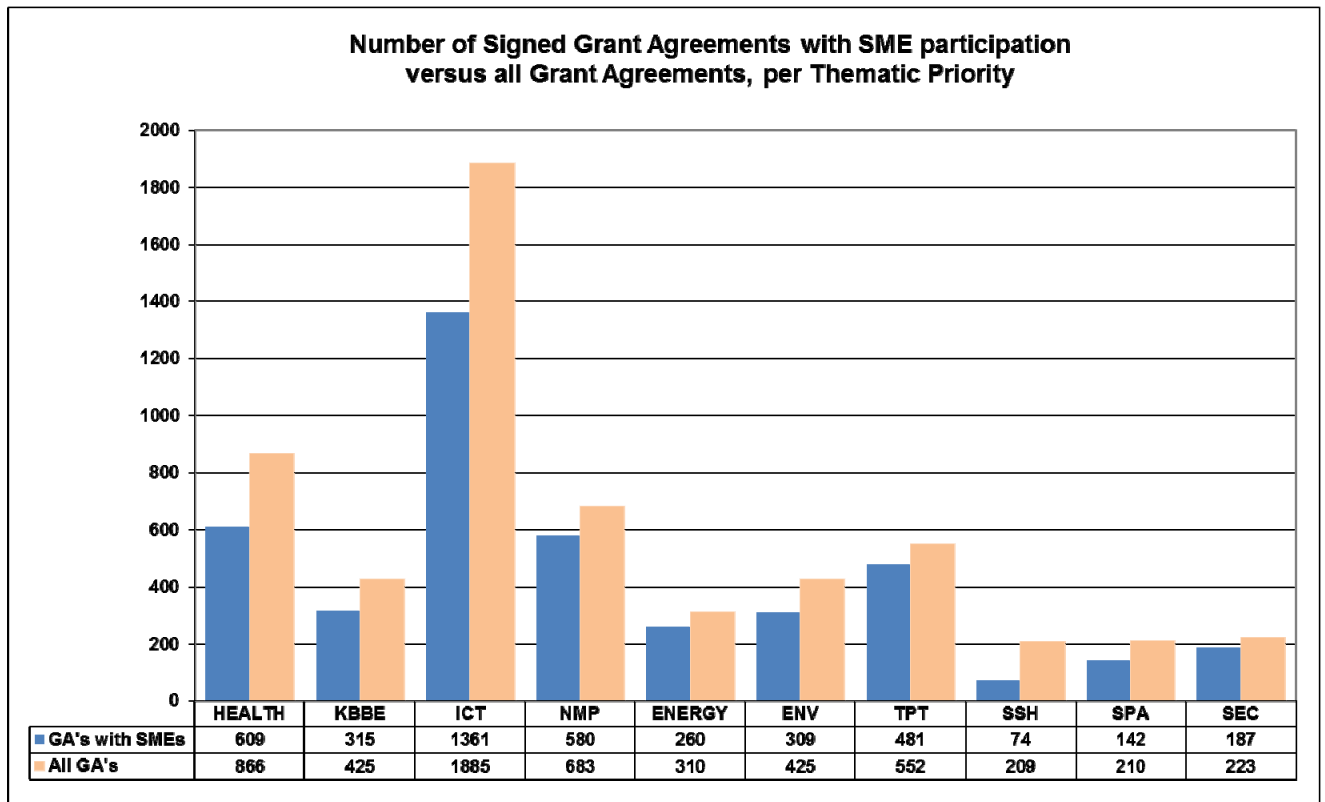

Graph 3: SME participations by theme

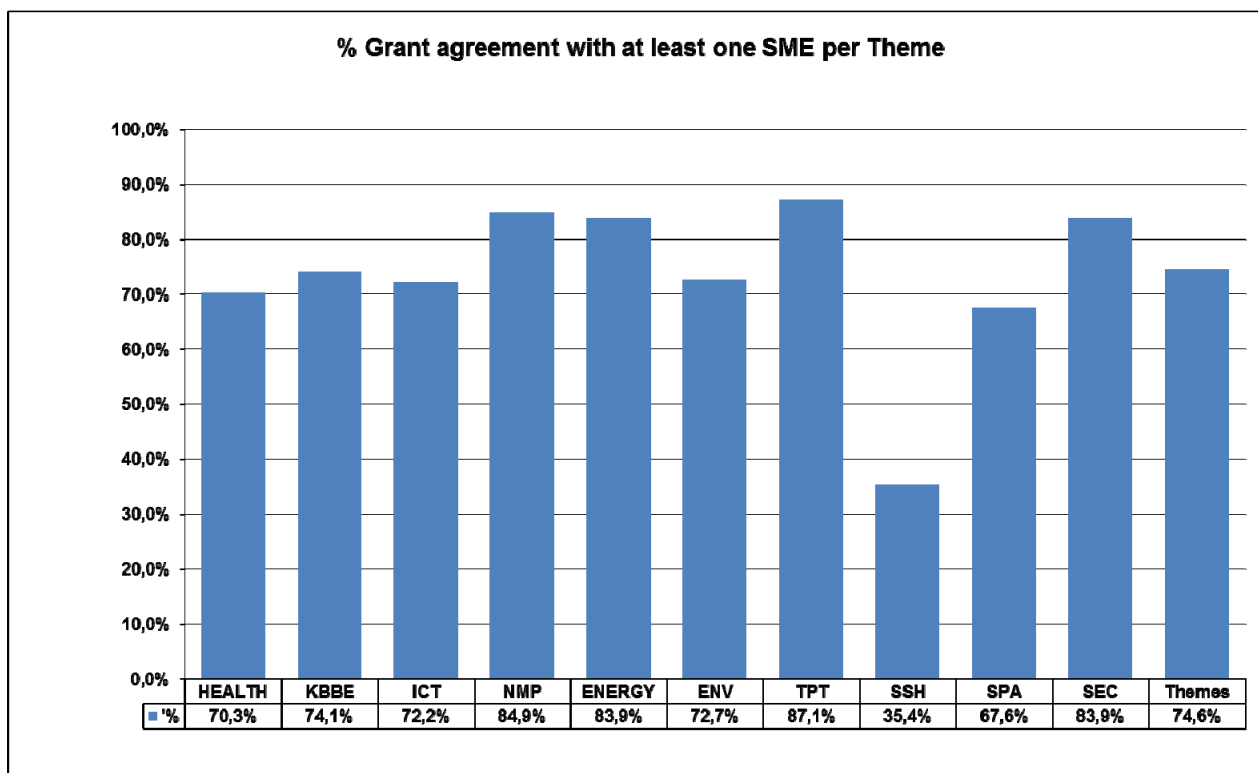

Graph 4: Participations by theme – SMEs versus all – in percentages

Grant agreements that include at least one SME

SMEs are fairly well represented in the consortia that have signed grant agreements with the European Commission under the Cooperation programme. Overall, 74.6% of the project consortia that have concluded grant agreements under the various thematic priorities include at least one SME. Most themes – with the exception of SSH – feature high SME participation, as 67 to 87% of the consortia involved have at least one SME partner, with the TPT thematic priority displaying the highest percentage (87.1%).

*Graph5: FP7-Cooperation Signed Grant Agreements by theme, 2007-2013
Signed Grant Agreements with at least one SME participation versus all Grant Agreements*

*Graph 6: FP7-Cooperation Signed Grant Agreements by theme, 2007-2013
Percentage of Grant Agreements with at least one SME*

Not the 'usual suspects': good turnover of participating SMEs

The recurrence rate of an organisation is the average number of projects in which an organisation participates.

Recurrence within the Thematic Programmes

The thematic programmes have about

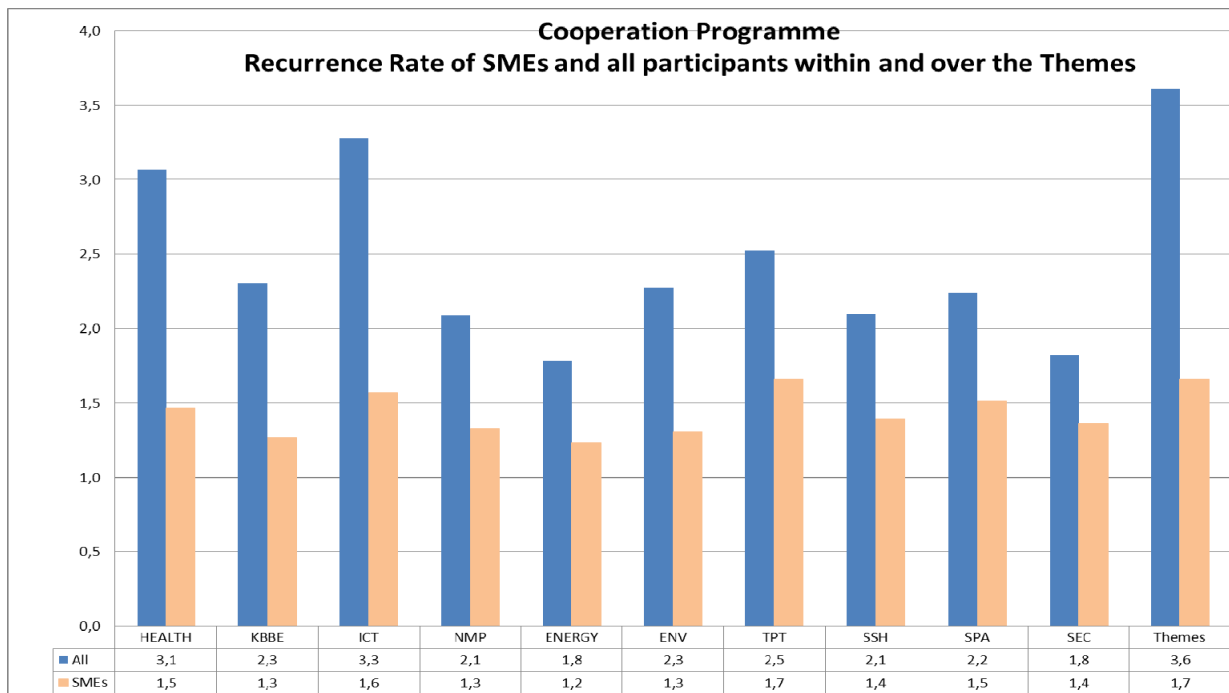

- 66,057 participations
- 18,294 organisations (individual participants)
- 12,414 SME participations
- 7,482 individual SMEs

SMEs

SMEs participate in one or two Framework Programme projects. On average, within the same theme, an SME participates in 1.4 projects. There are also SMEs which participate in projects of different themes. Overall, the global 'recurrence rate' of SMEs in the Cooperation programme (over the ten themes) is 1.7. This means that, on average, an SME participates in 1.7 projects.

All organisations

On average an organisation involved in the Cooperation programme participates in 2.3 projects. Organisations regularly are active in more than one theme (e.g. universities); on average a participating organisation is involved in 3.6 grant agreements within the Cooperation programme.

Graph 7: Recurrence rate of SMEs and all participants within and over the Themes (Cooperation Programme)

Recurrence within all Specific Programmes of FP7

The five Specific Programmes have about

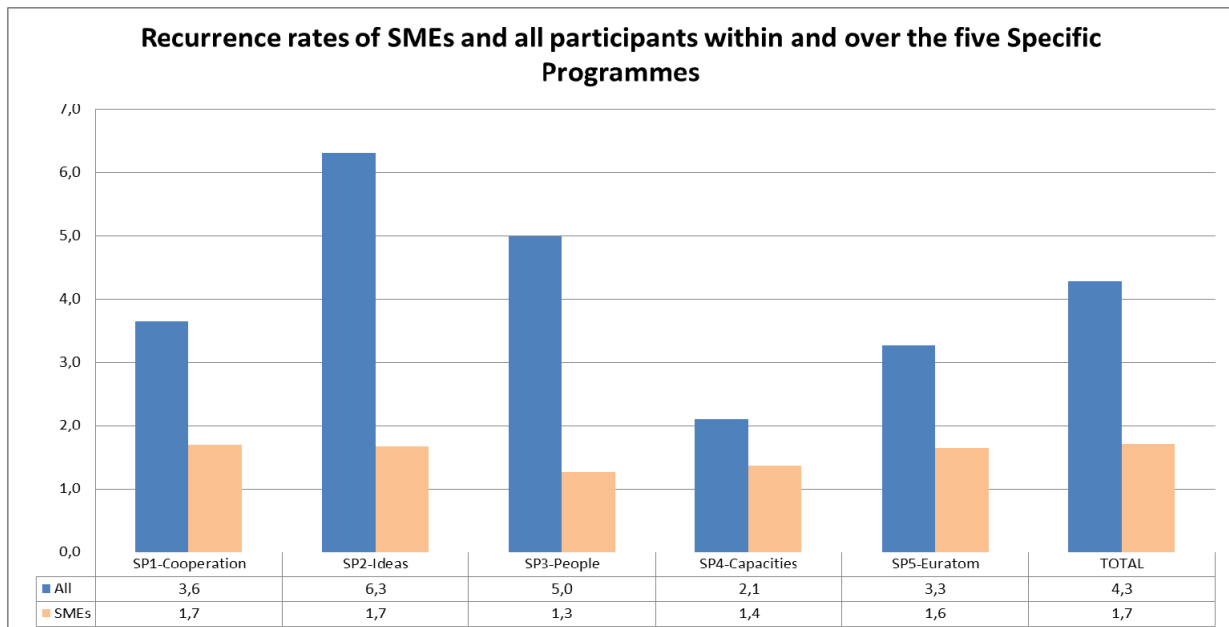

- 105,999 participations
- 24,774 organisations (individual participants)
- 19,264 SME participations
- 11,219 individual SMEs

SMEs

On average, SMEs involved in FP7 participate in 1.7 projects.

All organisations

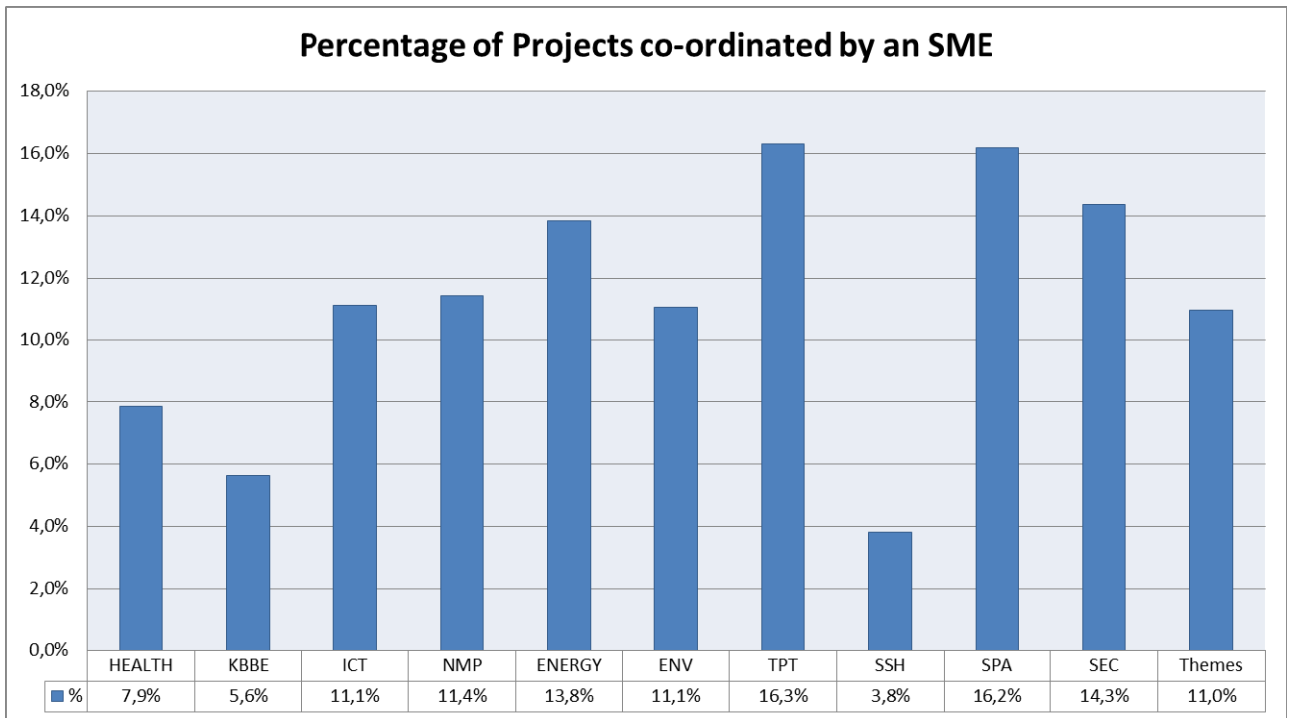

Over the whole of FP7, an organisation participates on average in 4.3 projects.

Graph 8: Recurrence rate of SMEs and all participants in the FP7 Specific Programmes

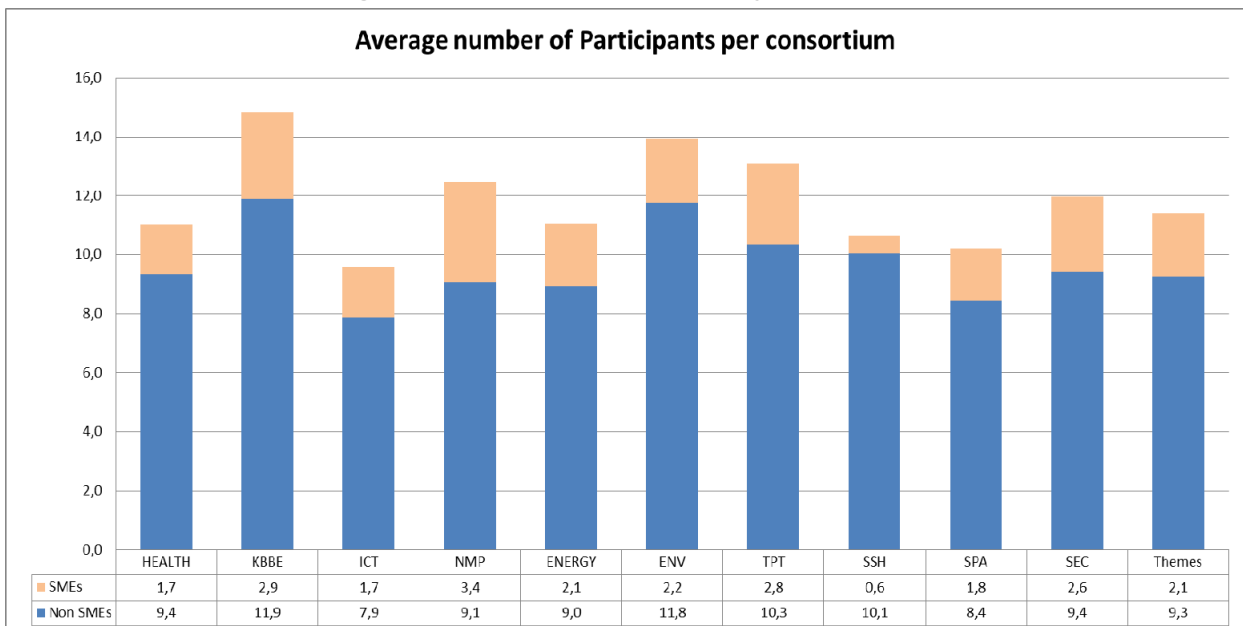

11% of FP7 projects coordinated by an SME

Seen over all FP7 themes, 11% of the projects have an SME as Coordinator.

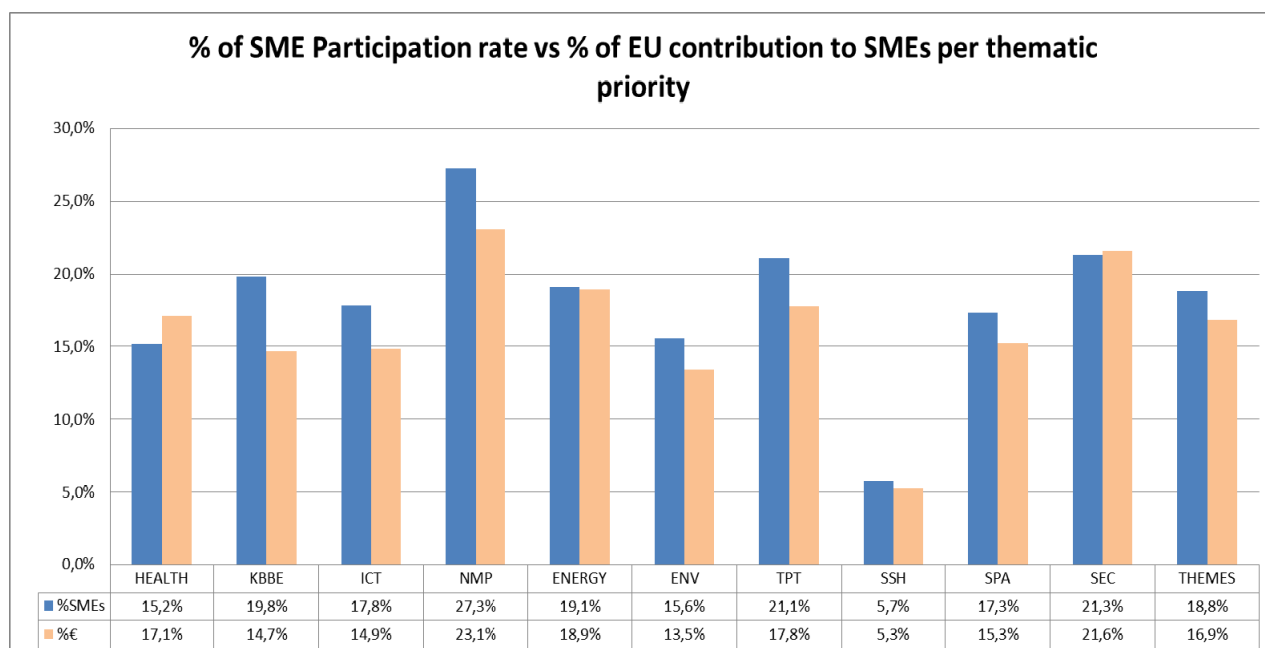

Graph 9: Projects coordinated by an SME, expressed as a percentage of the total number of projects

2 out of the average 11.4 partners of project consortia are SMEs

Graph 10: Average number of participants per project by theme – SMEs versus all

The NMP thematic priority draws most SME participation and devotes relatively the most of its budget to SMEs

Graph 11: SME Participation rate versus EU Contribution rate to SMEs (20 June 2013)

The graph above provides an indication of the average amount of money received by the SMEs under the different themes. In two themes (Health and SEC) the percentage of EU contribution going to SMEs is higher than the share of participating SMEs.

SME participation and EU Contribution per Country

Tables 3 to 6 below show the SME share of the EU Contribution in terms of value and as a percentage of the total, and the percentage of SME participation per country for all Member States and FP7 associated countries.

These country statistics enable each Member State to distil the relevant information on the participation of its own organisations/SMEs in the framework programme.

Since many country-specific factors have an impact on the participation of organisations/SMEs to the framework programme (for instance the number of SMEs, the size of the university population, the availability of other national or international funding opportunities in each country and in specific periods of time, and the number of overall applications), it makes little sense to compare between countries.

The analysis of the specific factors and the influence they have on the reported figures are issues that go well beyond the scope of this report.

Table 3: Member States Country EU Contribution Data (All Themes) Data 20/06/2013

Country Name	EU € to all	EU € to SMEs	% EU € to SMEs

Chapter 15. Joint Technology initiatives (JTIs)

A Joint Technology Initiative (JTI) is a public-private partnership using the 'Joint Undertaking' model. The following Joint Technology Initiatives are active and receive support from the Cooperation programme:

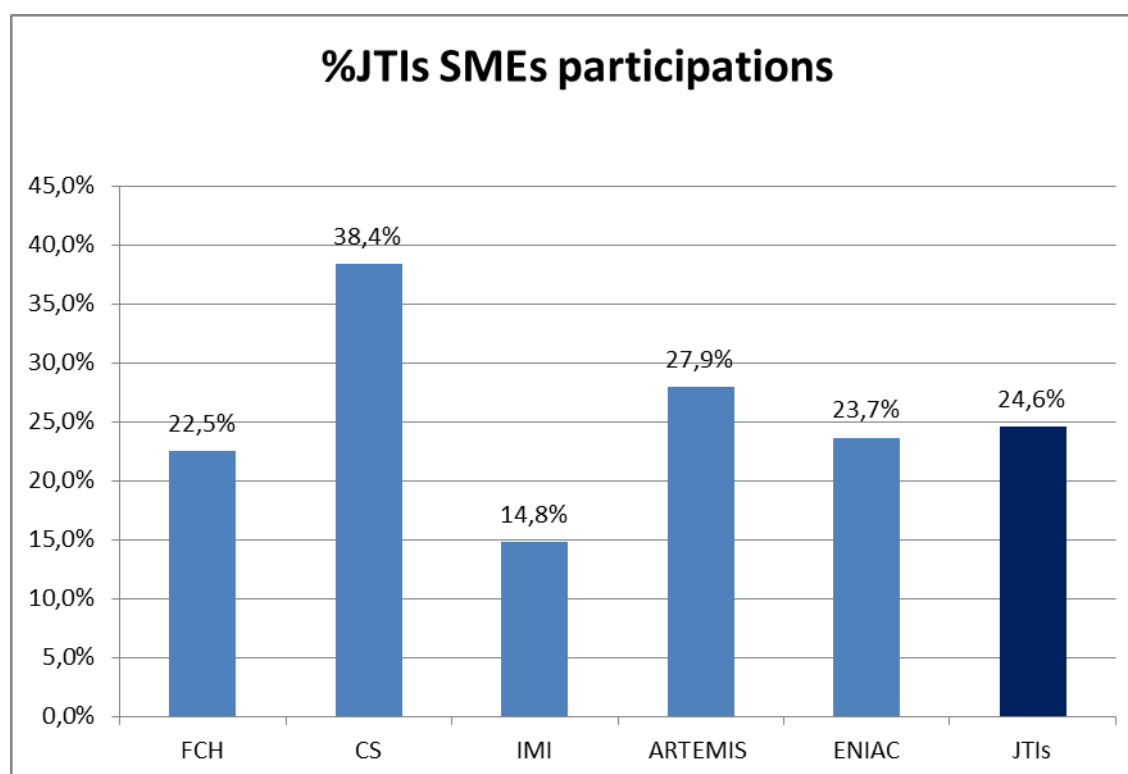

- Embedded Computing Systems (ARTEMIS)
- Aeronautics and Air Transport (Clean Sky - CS)
- Nanoelectronics Technologies 2020 (ENIAC JU)
- Hydrogen and Fuel Cells Initiative (FCH)
- Innovative Medicines Initiative (IMI)

The tables and graphs below give an overview of the current participation of SMEs and funding resulting from the open calls organised by the JTIs.

Table 55 SME Participations in JTIs

	Nr of Signed GAs	Nr of SMEs Participations	Number of ALL Participations	% of SME Participations	Average Size of Consortia	Average Nr of SMEs
FCH	85	163	725	22,5%	8,5	1,9
CS	252	182	474	38,4%	1,9	0,7
IMI	40	109	737	14,8%	18,4	2,7
ARTEMIS	44	263	941	27,9%	21,4	6,0
ENIAC	50	253	1069	23,7%	21,4	5,1
JTIs	471	970	3946	24,6%	8,4	2,1

Chapter 16. SME participations from Third Countries in FP7

This report also looks briefly into the participation of SMEs of Third Countries – i.e. non-EU member states and countries not formally associated to FP7 – in FP7. In total, there are 236 SME participations from third countries. Put together per group of countries, the SME participations are divided as follows:

Table 57: Number of SME participations per group of Third Countries

Country Group Description	SME Participations
ICPC - ACP - Africa	31
ICPC - ACP - Caribbean	1
ICPC - ACP - Pacific	0
ICPC - Asia	50
ICPC - Eastern Europe and Central Asia	82
ICPC - Latin America	27
ICPC - Mediterranean Partner Countries	17
ICPC - Western Balkan Countries	1
Other countries	62
Total	271
